

## AAR CORP. GRI and SASB content index

for the fiscal year ended May 31, 2025

## AAR CORP. GRI and SASB content index for the fiscal year ended May 31, 2025

Statement of Use: This reporting index aligns disclosures to select referenced standards of the Global Reporting Initiative (GRI) Universal Standards 2021 and applicable Sustainability Accounting Standard Board (SASB) Aerospace & Defense (version 2023-6) indicators. Disclosures herein include business activities covering AAR CORP.'s fiscal year ended May 31, 2025, unless otherwise noted. AAR CORP. is also referred to herein as "AAR" or the "Company."

SASB	GRI	GRI / SASB disclosure title	Response or disclosure location
			GRI 2: General disclosures
	2-1	Organizational details	AAR CORP. is a Delaware corporation headquartered in Wood Dale, Illinois, USA. Our common stock is traded on the New York Stock Exchange under the symbol "AIR."  2025 Sustainability Report  Who we are and what we do, pages 3-4  AAR website  Locations  2025 Annual Report  Locations, page 10
	2-2	Entities included in the organization's sustainability reporting	All of the entities in our financial reporting are also included in our sustainability reporting. In this year's Sustainability Report, entities include the following facilities located in the United States and Canada: Airframe MRO, Component Services, Integrated Solutions, Trax, and manufacturing facilities, as well as our Amsterdam and Thailand Component Services facilities and our corporate headquarters in a suburb of Chicago. We believe these sites have the most significant impact on our sustainability reporting efforts. Data is excluded from sites with fewer than 50 individuals, from sites where we may have a significant presence but no control over the operations, and from certain site types (small warehouses, satellite offices in Europe) where operations are minimal, data is not material, and activities are outside the scope of our core business operations. We will review our reporting boundary annually.  2025 Sustainability Report  Scope 1 and 2 emissions, page 13, 'Note about environmental data'
	2-3	Reporting period, frequency and contact person	AAR publishes a report or a summary report on sustainability annually. The reporting period for our 2025 Sustainability Report is our fiscal year ended May 31, 2025 (June 1, 2024, to May 31, 2025) (the "2025 fiscal year"), unless otherwise noted. The reporting period for our financial reporting aligns with the period for our sustainability reporting.  Our 2025 Sustainability Report was published in November 2025.  Questions and/or feedback regarding our sustainability reports should be directed to editor@aarcorp.com.
	2-4	Restatements of information	This year, we updated our organizational boundary in our emissions and sustainability reporting to better reflect our operations and facilities with the most significant impacts. We decided to exclude data from sites with fewer than 50 employees, from sites where we may have a significant presence, but no operational control, and from certain types of sites (small warehouses, satellite offices in Europe) where operations are minimal, data is not material, and activities are outside the scope of our core business operations.  We applied the new site boundary retroactively in our GHG emissions accounting and inventory for FY2022, FY2023, and FY2024 so that all sites and data align. You can find more information on our updated boundary and emissions for each fiscal year on pg. 13 of our 2025 Sustainability Report.
	2-5	External assurance	We did not pursue external assurance of our GHG emissions inventory this year.

	2-8	Workers who are not employees	In countries where it is legally required, our employees have employment contracts. We generally do not have employment contracts in the U.S. We do have U.S. citizens who are deployed to our government programs sites (OCONUS) who are on a renewable FSA (Foreign Service Agreement).  We retained approximately 500 contract workers as of May 31, 2025, with the majority located at our airframe maintenance facilities. We retain these contract workers as they provide unique skill sets which are necessary at our facilities as well as mitigate the impact of demand variability with our customers.

	3-3	Management of material topics	Please refer to our impact sections below.
		<u> </u>	Topic-specific Disclosures
			Economic performance
	201-2	Financial implications and other risks and opportunities due to climate change	2025 Form 10-K  ■ Item 1A. Risk Factors, pages 10-23  2025 TCFD content index
	201-3	Defined benefit plan obligations and other retirement plans	2025 Form 10-K  ■ Note 10, Employee Benefit Plans, pages 68-71
	201-4	Financial assistance received from government	Any material government funding is disclosed in our periodic reports with the SEC.
		·	Procurement practices
	204-1	Proportion of spending on local suppliers	<ul> <li>2025 Sustainability Report</li> <li>Governing with integrity – Supplier Engagement and Procurement Practices, pages 26-27</li> <li>AAR website, Corporate Governance page</li> <li>Global Anti-Corruption Policy</li> <li>Supplier Code of Conduct</li> </ul>

			Anti-corruption
	205-2	Communication and training about anti- corruption policies and procedures	<ul> <li>2025 Sustainability Report</li> <li>Governing with integrity – Anti-corruption, page 24</li> </ul> AAR website, Corporate Governance page
RT-AE- 510a.3		Discussion of processes to manage business ethics risks throughout the value chain	<ul> <li>Zero tolerance for corruption and bribery</li> <li>Global Anti-Corruption Policy</li> <li>Code of Conduct</li> <li>Supplier Code of Conduct</li> <li>Speaking Up and Non-Retaliation Policy</li> <li>2025 Form 10-K</li> <li>Item 1. Business – Human Capital Resources, pages 7-8</li> <li>2025 Proxy Statement</li> <li>Proposal 1 – Election of director nominees – The Board's role and responsibilities, page 28, and Board practices and policies, pages 36-38</li> </ul>
	205-3	Confirmed incidents of corruption and actions taken	<ul> <li>2025 Form 10-K</li> <li>Item 3. Legal proceedings, page 25</li> <li>AAR website, Corporate Governance page</li> </ul>
RT-AE- 510a.1		Total amount of monetary losses from legal proceedings associated with incidents of corruption, bribery, and/or illicit international trade	Investigations
RT-AE- 510a.2		Revenue from countries ranked in the "E" or "F" band of Transparency International's Government Defense Anti-Corruption Index	We report sales in North America, Europe/Africa, Asia, and Other. We do not put revenues from other geographic areas in the public domain due to commercial confidentiality.  2025 Form 10-K  Note 17, Business Segment Information, pages 75-80
			Anti-competitive behavior
	206-1	Legal actions for anti- competitive behavior, anti- trust, and monopoly practices	None for the reporting period.  2025 Form 10-K  Item 3. Legal proceedings, page 25

			Materials
	301-2	Recycled input materials used	We are generally engaged in only limited manufacturing activities—restricted primarily to our Expeditionary Services business, constituting approximately 5% of our sales. Accordingly, at this time, our impact areas may not include topics typically reported by manufacturing companies.
RT-AE- 440a.1		Description of the management of risks associated with the use of critical materials	2025 Sustainability Report  ■ Focusing on the environment, pages 10-14  ■ Driving Social Responsibility, pages 16-17  2025 Form 10-K
	301-3	Reclaimed products and their packaging materials	<ul> <li>Item 1. Business – Raw Materials and Procurement of Repair and Other Services, page 5</li> <li>AAR website, <u>Corporate governance</u></li> <li><u>Conflict Minerals Policy</u></li> <li><u>2025 Form SD</u></li> </ul>
			Energy
	302-1	Energy consumption within the organization	2025 Sustainability Report
RT-AE- 130a.1		(1) Total energy consumed (2) percentage grid electricity and (3) percentage renewables	Focusing on the environment, pages 10-14 AAR's (1) Total energy consumed in Fiscal Year 2025 was 574,767 (GJ), or 159,657 (MWh), which consisted of 388,014 (GJ), or 107,781 (MWh), of natural gas and 186,752 (GJ), or 51,875 (MWh), of electricity. (2) Grid electricity in FY2025 represented 100% of the overall energy consumed. (3) 0% of energy consumed, beyond the renewable portion of the electricity grid mix, is from renewable sources. In Fiscal Year 2025, our energy intensity was 57 MWh/\$M or 205 GJ/\$M. The calculation takes into account electricity and natural gas use for sites within our reporting boundary as described in the FY2025 Sustainability Report and in GRI 2-4 and is based or
	302-3	Energy intensity	annual sales of \$2.8 billion for FY2025.

			Water and effluents
	303-1	Interactions with water as a shared resource	<ul> <li>2025 Sustainability Report</li> <li>Focusing on the environment, pages 10-14</li> </ul>
			2025 TCFD Content Index
		'	Emissions
	305-1	Direct (Scope 1) GHG emissions	2025 Sustainability Report     Focusing on the environment, pages 10-14
	305-2	Energy indirect (Scope 2) GHG emissions	
	305-4	GHG emissions intensity	2025 Sustainability Report     Focusing on the environment, page 13
RT-AE- 410a.1		Revenue from alternative energy- related products	AAR CORP. does not generate revenue from alternative energy-related products.
RT-AE- 410a.2		Description of approach and discussion of strategy to address fuel economy and greenhouse gas (GHG) emissions of products	AAR CORP. primarily provides aftermarket support and services. AAR is generally engaged in limited manufacturing activities. We have limited control of use-phase emissions as our customers dictate flight plans and flight paths. However, in our maintenance and repair operations, we are continuing to investigate ways to minimize the use of jet fuel in diagnostic testing and repair situations.
			Waste
	306-1	Waste generation and significant waste-related impacts	2025 Sustainability Report     Focusing on the environment, pages 10-14     Driving Social responsibility, pages 16-17
	306-2	Management of significant waste-related impacts	2025 Sustainability Report  ■ Focusing on the environment, pages 10-14
RT-AE- 150a.1	306-3	Waste generated Amount of hazardous waste generated	As we advance our sustainability program, AAR will consider the inclusion of diverted and landfilled hazardous waste for public disclosure. We are currently evaluating systems and processes to consistently report our consumption volumes across sites, relative to the potential impact.
	306-4	Waste diverted from disposal Percentage recycled	
	306-5	Waste directed to disposal	
RT-AE- 150a.2		Number and aggregate quantity of reportable spills, quantity recovered	There were no significant spills in the 2025 fiscal year. AAR consumes fuel from natural gas for heating. Other sources include propane for forklifts, gasoline for vehicles, and diesel for back-up generation. However, we believe these are considered de minimis and not reported. While we consume jet fuel in our operations within the reporting boundaries, we also believe jet fuel use to be immaterial to our overall energy consumption.

		Environmental compliance
6	Non-compliance with environmental laws and egulations	AAR discloses material legal proceedings in our SEC reports.  2025 Form 10-K  Item 3, Legal proceedings, page 25  AAR website, Corporate Governance page  Investigations
