General Repair Technician

The position

We are looking for General Repair Technician (Machining). The technician performs disassembly, inspection, repair, cleaning, painting, and assembly of aircraft structures and components in accordance with approved technical data. The role ensures safe, compliant, and efficient operations while supporting production targets and continuous improvement initiatives.

Key Roles & Responsibilities:

- Attend daily production meetings to review work assignments, report progress, and escalate any working issues, safety concerns, or quality risks.
- Perform disassembly, cleaning, painting, inspection, repair, and assembly of aircraft structures and components under supervision.
- Conduct visual and basic dimensional inspections using appropriate tools and inspection methods under supervision.
- Perform machining and repair operations (e.g., lathe, milling, drilling, grinding) in accordance with approved technical data (CMM, SRM, engineering instructions) under supervision.
- Read, interpret, and follow technical manuals, drawings, and work instructions accurately as assigned.
- Complete assigned tasks within planned labor hours and meet production and delivery targets.
- Ensure all required documentation and records are completed accurately and in a timely manner.
- Perform daily checks and basic preventive maintenance of tools, equipment, chemical storage, and work areas.
- Ensure all tools and equipment are in good condition and properly controlled before use.
- Comply with PPE requirements, EHS regulations, and company procedures at all times.
- Maintain good housekeeping and 5S practices in the work area.
- Ensure product quality meets FAA, EASA, customer, and internal requirements.
- Support continuous improvement initiatives related to safety, quality, delivery, and cost.
- Perform additional duties as assigned by supervisor or team leader/captain.
- Execute all activities in strict accordance/compliance with the EH&S Policy, Procedure, law & regulation, ISO 14001 system, and SMS.

- Take ultimate accountability for the prevention of work-related injury , ill health and accident as well as the protection & conservation of the environment.

Qualifications:

- Minimum 2 years of experience in aerospace repair, manufacturing, or MRO environment.
- Strong understanding of repair processes and shop practices.
- Ability to read and interpret technical drawings and manuals independently.
- Ability to use measuring tools and perform basic dimensional verification.
- Good troubleshooting and problem-solving skills.
- Basic understanding of special processes (e.g., NDT, welding, coating).
- Willingness to learn new skills, tools, and processes.
- Ability to work under pressure, manage multiple tasks to meet production deadlines.
- Demonstrated good workmanship and quality awareness.

Total rewards

As an AAR team member your rewards include:

- Annual uniform
- PPE safety equipment
- Transportation
- Vacation benefits, including Thai Public Holidays
- Provident Fund
- Group Insurance
- Training and development opportunities
- Staff engagement and recognition events

Performance objectives

- **Teamwork** – collaborates with colleagues to achieve results and is also comfortable working independently
- **Building trust** – operates with integrity, discloses own positions, remains open to ideas, and supports others through dignity, respect, and fairness
- **Building relationships and partnerships** – develops and leverages relationships within and across teams to achieve results
- **Communication** – conveys information and ideas clearly and concisely to individuals or group in an engaging manner, helping them understand and retain the message
- **Analytical skills** – must be able to use data to determine cause and effect for complex problem solving
- **Quality orientation** – accomplishes tasks by considering all areas involved, no matter how detailed

Why should you apply?

- AAR is the only aerospace / defense company on Forbes' America's Best Mid-Size Employers list.
- Our innovative and entrepreneurial culture encourages employee input in every aspect, from day-to-day activities to the company's future growth.
- Our learning and career development program affords employees a learning path with the necessary tools and resources needed to help build their career at AAR.
- We support non-profits and organizations that work to improve society in four primary areas: veterans and active military; education with an emphasis on STEM; health and wellness; and diversity / inclusion.
