Fabrication Technician (Repair Center)

The position

We are looking for a fabrication technician that performs fabrication and forming of metallic structural parts and components in accordance with approved technical data. The role ensures accurate part manufacturing, dimensional conformity, and proper fit-up to support aircraft repair processes while maintaining safety, quality, compliance, and production efficiency.

Key Roles & Responsibilities:

- Attend daily production meetings to review assignments, report progress, and escalate technical, safety, or quality concerns.
- Perform fabrication of sheet metal parts such as skin, doubler, patch, bracket, honeycomb core, and structural component in accordance with CMM/SRM and approved technical data.
- Fabricate parts from master samples, templates, or engineering drawings.
- Perform bending, rolling, stretching, and forming operations using appropriate machines (e.g., press brake, roller, Eckold stretching machine).
- Perform edge finishing, deburring, and dimensional adjustments to meet required tolerances.
- Ensure proper fit-up and alignment prior to assembly or bonding processes.
- Operate fabrication equipment safely and effectively (cutting, forming, drilling machines).
- Verify tooling, equipment calibration, and machine readiness before use.
- Select appropriate tools, dies, and forming methods for each job.
- Ensure fabricated parts meet dimensional, structural, and cosmetic requirements.
- Complete assigned jobs within planned labor hours and production schedule.
- Ensure repairs comply with FAA, EASA, CAAT, customer, and company quality requirements.
- Complete work records, travelers, and traceability documents accurately.
- Report technical issues, material shortages, or process abnormalities promptly.
- Support continuous improvement in safety, quality, delivery, and cost.
- Wear required PPE and comply with EHS / chemical safety requirements.
- Maintain good housekeeping and 5S standards.
- Handle sheet metal cutting, rolling, stretching, grinding safely.
- Perform additional duties as assigned by Captain/Assistant Manager.

- Execute all activities in strict accordance/compliance with the EH&S Policy , Procedure, law & regulation, ISO 14001 system, and SMS .
- Take ultimate accountability for the prevention of work-related injury , ill health and accident as well as the protection & conservation of the environment.

Qualifications:

- Minimum 3 years of aircraft sheet metal fabrication experience.
- Ability to fabricate complex parts with tight tolerances with minimal supervision.
- Ability to operate and trouble-shooting Eckold stretching machine with minimal supervision.
- Have product knowledge & familiarization and problem-solving skill for fabrication in Nacelles and FCS (2 Engine types and 2 aircraft types).

Total rewards

As an AAR team member your rewards include:

- Annual uniform
- PPE safety equipment
- Transportation
- Vacation benefits, including Thai Public Holidays
- Provident Fund
- Group Insurance
- Training and development opportunities
- Staff engagement and recognition events

Performance objectives

- **Teamwork** – collaborates with colleagues to achieve results and is also comfortable working independently
- **Building trust** – operates with integrity, discloses own positions, remains open to ideas, and supports others through dignity, respect, and fairness
- **Building relationships and partnerships** – develops and leverages relationships within and across teams to achieve results
- **Communication** – conveys information and ideas clearly and concisely to individuals or group in an engaging manner, helping them understand and retain the message
- **Analytical skills** – must be able to use data to determine cause and effect for complex problem solving
- **Quality orientation** – accomplishes tasks by considering all areas involved, no matter how detailed
-

Why should you apply?

- AAR is the only aerospace / defense company on Forbes' America's Best Mid-Size Employers list.
- Our innovative and entrepreneurial culture encourages employee input in every aspect, from day-to-day activities to the company's future growth.
- Our learning and career development program affords employees a learning path with the necessary tools and resources needed to help build their career at AAR.
- We support non-profits and organizations that work to improve society in four primary areas: veterans and active military; education with an emphasis on STEM; health and wellness; and diversity / inclusion.

About AAR

AAR is an awarded global aerospace and defense company that offers employees a long-term career pathway and the opportunity to work with a great team! At AAR, our people remain our priority! We create the #BestTeamInAviation by focusing on recruitment, training, growth, engagement, and retention. AAR employees are empowered to meet their individual professional development goals through our global learning and development program, mentorship program, leadership training, continued education, networking, and much more!

AAR is committed to building a diverse and inclusive workforce. We encourage applications from people of all races, ethnic origins, religions, abilities, sexual orientations, gender identities, or expressions. We are dedicated to the health and safety of our people, our customers, and the communities where we live and work.

Primary Location: 700/160 Amata City Chonburi Industrial Estate Moo1, T. Bankao, A. Pantong, Chonburi, 20160 Thailand.

Qualified applicants may email their resume to ACSTH-Recruitment@aarcorp.com

Please submit your resume in PDF format.

Although all applications are appreciated, only those candidates selected for an interview will be contacted.
