Environmental, Health & Safety Engineer (EHS)

The position

We are looking for an EHS Engineer to ensure the company fully complies with all legal and ethical health, safety, and environmental standards. The role is responsible for maintaining robust workplace accident contingency plans and implementing safety protocols to protect employees and foster a secure operational environment.

Key Roles & Responsibilities:

- Ensure that the company fully meets its legal and ethical responsibilities with respect to all aspects of health and safety and environment.
- Key participant of the Safety committee and EH&S Council motivate participants and colleagues within company to implement and embrace the Company's Health, Safety and Environmental policies & procedures.
- Ensure that all colleagues are trained in the appropriate aspects of health & safety for their roles; including general safety awareness, risk assessment, manual handling, fire safety, first aid, breathing apparatus, and resuscitation equipment. Ensure new employees are inducted into the company's health and safety procedures in their first week of employment.
- Ensure all clients, visitors and contractors are aware of and follow safety policy.
- Ensure that the Company has a full complement of representatives and first-aiders for each physical area, organizing training as required
- Lead comprehensive Risk Assessments, Job Safety Analyses (JSA)
- To initiate, organize, drive and administrate regular fire and health & safety audits and inspections of the buildings to ensure laboratory, office, kitchen and pilot plant safety are maintained to the required standards and PPE (personal protective equipment) is being utilized as required.
- Review and maintain all risk assessments
- Doing routine safety inspections
- Keeping OSHA required records on accidents and maintenance
- • Employee Safety Training
- Maintaining and purchasing personal protective equipment
- Helping to solve workplace safety problems
- Maintaining Safety contingency plans (fires, spills, etc.)

- Meeting local fire regulations, and insurance industry requirements
- Any other job duties as assigned by the Employer
- Aware of environmental aspect
- Follow the implementation of corrective & preventive actions
- Investigate active failures to establish the 'why' and 'how' with the objective of identifying contributing factors and recommending preventing measures or changes.

Qualifications:

- Bachelor's degree Occupational Health and Safety
- Obtained Safety Professional Certification
- Strong teamwork ethic and fostering of good rapport within the organization
- Able to work overtime/shift/weekends as requested
- Computer skills MS Office
- Strong English and Thai Communications Skills both speaking and writing

Total rewards

As an AAR team member your rewards include:

- Annual uniform
- PPE safety equipment
- Transportation
- Vacation benefits, including Thai Public Holidays
- Provident Fund
- Group Insurance
- Training and development opportunities
- Staff engagement and recognition events

Performance objectives

- **Teamwork** – collaborates with colleagues to achieve results and is also comfortable working independently
- **Building trust** – operates with integrity, discloses own positions, remains open to ideas, and supports others through dignity, respect, and fairness
- **Building relationships and partnerships** – develops and leverages relationships within and across teams to achieve results
- **Communication** – conveys information and ideas clearly and concisely to individuals or group in an engaging manner, helping them understand and retain the message
- **Analytical skills** – must be able to use data to determine cause and effect for complex problem solving
- **Quality orientation** – accomplishes tasks by considering all areas involved, no matter how detailed

Why should you apply?

- AAR is the only aerospace / defense company on Forbes' America's Best Mid-Size Employers list.
- Our innovative and entrepreneurial culture encourages employee input in every aspect, from day-to-day activities to the company's future growth.
- Our learning and career development program affords employees a learning path with the necessary tools and resources needed to help build their career at AAR.

- We support non-profits and organizations that work to improve society in four primary areas: veterans and active military; education with an emphasis on STEM; health and wellness; and diversity / inclusion.
