Calibration Technician (Quality)

The position

We are looking for a Calibration engineer who is responsible for the maintenance, calibration, and verification of measuring equipment and reference standards to ensure their accuracy, reliability, and compliance with industry and regulatory requirements, and ensuring all instruments remain in optimal working condition to support quality and operational needs.

Key Roles & Responsibilities:

- Oversee the implementation, maintenance, and continual improvement of the ISO/IEC 17025 Management System.
- Lead the development, modification, verification, and validation of calibration and material testing methods in compliance with ISO/IEC 17025 requirements.
- Maintain the laboratory's ISO/IEC 17025 accreditation status, including preparation for internal and external audits.
- Analyze calibration and testing results, including evaluation of measurement uncertainty and statements of conformity as per ISO/IEC 17025 standards.
- Monitor and understand budget considerations related to calibration and testing processes.
- Review calibration reports to ensure accuracy, traceability, and compliance.
- Identify deviations from procedures or the management system and initiate appropriate corrective or preventive actions.
- Report to management on the performance of the ISO/IEC 17025 system, highlighting any areas for improvement.
- Ensure the effectiveness and technical competence of all calibration and material testing activities within the laboratory.
- Manage and maintain the inventory of Master Calibration Tools and equipment.
- Liaise with external calibration service providers and material testing vendors to resolve technical issues and ensure service quality.
- Ensure all calibrated items are returned promptly without disrupting operational schedules.

- Develop, maintain, and update work instructions for calibration equipment, tooling, measurement devices, and machines.
- Perform hands-on calibration and material testing as required, ensuring accuracy and reliability of measurements.
- Support the Quality Manager in addressing daily quality-related issues and participate in continuous improvement initiatives.
- Execute all activities in strict accordance/compliance with the EH&S Policy, Procedure, law & regulation, ISO 14001 system, and SMS.
- Take ultimate accountability for the prevention of work-related injury, ill health and accident as well as the protection & conservation of the environment.

Qualifications:

- Bachelor's degree in any engineering discipline.
- Minimum of 5 years of experience in calibration or material testing within an ISO/IEC 17025-accredited environment.
- Attended training or possesses solid knowledge of ISO/IEC 17025, ISO 9001 calibration methods and material testing methodologies.
- Proficient in personal computers and standard office software applications.

Total rewards

As an AAR team member your rewards include:

- Annual uniform
- PPE safety equipment
- Transportation
- Vacation benefits, including Thai Public Holidays
- Provident Fund
- Group Insurance
- Training and development opportunities
- Staff engagement and recognition events

Performance objectives

- **Teamwork** – collaborates with colleagues to achieve results and is also comfortable working independently
- **Building trust** – operates with integrity, discloses own positions, remains open to ideas, and supports others through dignity, respect, and fairness
- **Building relationships and partnerships** – develops and leverages relationships within and across teams to achieve results
- **Communication** – conveys information and ideas clearly and concisely to individuals or group in an engaging manner, helping them understand and retain the message
- **Analytical skills** – must be able to use data to determine cause and effect for complex problem solving
- **Quality orientation** – accomplishes tasks by considering all areas involved, no matter how detailed

Why should you apply?

- AAR is the only aerospace / defense company on Forbes' America's Best Mid-Size Employers list.
- Our innovative and entrepreneurial culture encourages employee input in every aspect, from day-to-day activities to the company's future growth.

- Our learning and career development program affords employees a learning path with the necessary tools and resources needed to help build their career at AAR.
- We support non-profits and organizations that work to improve society in four primary areas: veterans and active military; education with an emphasis on STEM; health and wellness; and diversity / inclusion.
