

AAR-204

SAFETY INSPECTOR

About Us:

AAR Corp. (NYSE: AIR) is a global aerospace and defense aftermarket solutions company that employs more than 6,000 people across over 60 sites in over 20 countries. Headquartered in the Chicago, Illinois area, AAR supports commercial and government customers in more than 100 countries through four operating segments: Parts Supply, Integrated Solutions, Repair and Engineering and Expeditionary Services.

AAR's purpose is to empower people to build innovative aerospace solutions today so you can safely reach your destination tomorrow. The company's mission is to go above and beyond to provide value-driven aerospace aftermarket solutions to meet the evolving needs of our customers worldwide. AAR constantly searches for the right thing to do for its customers, employees, partners and for society.

Description:

Safety Inspectors will be responsible for compiling objective evidence by reviewing documentation, observing activities, performing audits, surveillance and investigations to determine whether individuals are conducting business in accordance with regulations and established policies and procedures. Safety Inspectors also provide direction and recommendations for the resolution of matters of non-conformance.

They engage primarily in the following types of assignments: (not limited to):

- (a) Evaluating technicians and the repair facility for continuing accuracy;
- (b) Challenging technicians and inspectors, that they are following established policies and procedures.

What you will be responsible for:

- Ensure all personnel comply with current TCCA Policies and Procedures
- Demonstrate excellent communication skills, professionalism, and positive customer service attitude without compromising quality
- Ensure maintenance personnel use approved or accepted data issued by the manufacturer, TCCA, and/or Customer
- Ensure adequate inspection aids, special tools and equipment are available, and maintained in a serviceable condition
- Conduct WIP audits
- Other duties as assigned

What you will need to be successful in this role:

- High School Diploma or equivalent

- Five (5) years hands-on Aircraft Maintenance experience or five (5) years specialized experience in a related aviation field
- Familiar with TCCA regulations
- Formal Quality Assurance/auditing training preferred
- Proficient in Microsoft Office skills including Word, Excel and Power Point
- Be able to analyze information and utilize problem solving skills
- Able to interface in a pleasant and professional manner with all departments, level of management, customers, and vendors
- Strong written, verbal, presentation, and interpersonal skills

Physical Demands/Work Environment:

The physical demands and work environment characteristics described here are representative of those that must be met by an employee to successfully perform the essential functions of this job.

- Shift Work (must be willing to work irregular schedule when required)
- Office and Hangar Floor Environment
- May be exposed to high level of noise, dust, vibration and chemical fumes
- Able to climb ladders and platforms occasionally attaining heights of various aircraft types

AAR provides accommodation in accordance with applicable laws through all stages of the hiring process. If you require accommodation for any part of the application and/or hiring process, please advise Human Resources.

Application:

Qualified applicants may email their resume to windsorrecruiting@aarcorp.com. **Please quote file # AAR-204.**

Although all applications are appreciated, only those candidates selected for an interview will be contacted.

AAR is committed to building a diverse and inclusive workforce. We encourage applications from people of all races, ethnic origins, religions, abilities, sexual orientations, gender identities, or expressions. We are dedicated to the health and safety of our people, our customers, and the communities where we live and work.
